

## Environmental Product Declarations

Database and reporting tool to demonstrate compliance with the Buy Clean California Act Assembly Bill 262.

## Declarations Module – MetaBIM Home Screen

The Declarations Module is where Projects and associated Environmental Product Declarations can be tracked on a per project basis.

To begin click on the 'Declarations' icon.

The screenshot shows the MetaBIM Home Screen for CSU East Bay. At the top left is the California State University East Bay logo. To the right of the logo is the text 'CALIFORNIA STATE UNIVERSITY EAST BAY'. In the top right corner, there is a 'Print Version' link with a printer icon. Below the logo, there is a 'Navbar' section with a 'Home' link. To the right of the navbar, there is a 'MetaBIM Account' link with a red dot, the date '2/6/20', the time '11:00 am', a 'CSU' link, and a 'Logout' link. The main content area is titled 'CSU East Bay' and contains a grid of icons and links. The 'Declarations' link, which includes the text 'Environmental Product Declarations', is circled in red. Other links include 'My Info', 'Property', 'Master Plans', 'Insurance', 'Mapping', 'Documents', 'Energy', 'ISES', 'Contracts', 'Comments', 'Key Control', 'Help Docs', and 'Capital'.

# Environmental Project Declarations - Database

This screen shows us the entire database of projects for a given campus and high level details. Users can filter and search for project records using the search bar. The campus field will be set to the campus location that is accessing their EPDs. Organized by Budget Year we can see a summary of data per project in the listing.

**Project Description:**

The SSRB, a four-story steel-braced frame structure with concrete-filled metal decks, accommodates student and administrative offices previously housed in Warren Hall. This project represents the first step in the seismic upgrade and renovation of Warren Hall, which has significant seismic and code deficiencies, as well as hazardous material risks. The exterior of the SSRB is a combination of insulated metal panel and high-performance vision glass, with a glass curtain wall at the building's main entry point. The project also included site improvements to align Warren Hall with the dominant east-west pedestrian axis, linking it with the library and the eastern perimeter parking lots. Sustainable features incorporated into the project include low-emission-rated glass used as part of the

If you have additional questions about any of the information on the CSU East Bay website, or need technical assistance with these pages, please contact the System Administrator by phone at (562) 951-4086 or by email at [jmorgan@calstate.edu](mailto:jmorgan@calstate.edu).

## Declarations Module – MetaBIM Home Screen

An individual project record will have the information we just entered in the green box at the top. If there is already a BRIP record for this project it will be linked in the Project Insurance Field. If your campus subscribes to full FacilitiesLink™ Platform there will be a link to the Capital Project Record.

## Create Material Entry

To create a material entry select a material category and enter the units used. Next, select a Program Operator, enter the EPD declaration number and the dates of validity.

Select a status of the EPD entry (submitted or not submitted) then state if the EPD is in compliance.

### Create Material Entry

Create an EPD entry for the project Student Services Replacement Bldg. Select the materials for the entry, product category rules, program operator, etc. The red asterisk indicates a required field. \*

<b>Material: *</b>	<b>Total Units: *</b>	<b>Declaration Number:</b>
<input type="text"/>	<input type="text"/>	<input type="text"/>
<b>Program Operator: *</b>		<b>Valid Start Date: *</b>
<input type="text"/>		MM DD YYYY <input type="text"/>
<b>Status: *</b>		<b>End Date: *</b>
<input type="text" value="Submitted"/>		MM DD YYYY <input type="text"/>
		<b>Compliance: *</b>
<b>Link to EPD:</b>		<input type="text" value="In Compliance"/>
<input type="text"/>		<b>Reason For Exemption:</b>
<b>Comments:</b>	<input type="text"/>	
<input type="button" value="Create"/> <input style="margin-left: 100px;" type="button" value="Cancel"/>		

## Create Material Entry

A URL can be entered into the form that links directly to the EPD hosted by the Program Operator.

When complete click 'Create' to add the material entry to the project.

### Create Material Entry
